

Garden City Plastics

FAMILY OWNED & OPERATED SINCE 1975

The Mankar line of sprayers can help you reduce labour and herbicide costs.

- Mankar's patented segment atomisers create evenly-sized, evenly-spaced droplets which allows high-concentrate products to be used without dilution.
- Through the use of hoods, atomisers and a non-pressurised delivery, Mankar sprayers boast excellent drift control.
- No need to mix the chemical with water, therefore you benefit from less downtime (no filling tanks, measuring, etc) and carrying a lot less weight.

**Mankar Roll-2 110 Flex
Trolley Sprayer with
front wheel.**
MANKARTWO110

**Mankar Carry-HQ-45
Hand Held Unit.
(Oval spray hood)**
MANKARHQ45
